EDUCATION

B.Tech in Computer Engineering

Dharmsinh Desai University

CPI - 8.33

2020 – 2024

Nadiad, Gujarat, India

HSC State Board

Sarvodaya Science School

Percentile : 98.45

2020

Rajkot, Gujarat, India

EXPERIENCE

Softsages Technology - Internship

School ERP System

- During my internship, I focused on making user-friendly apps using Flutter. One project I worked on was a School ERP System. I have used the MVVM structure to maintain the code. I have also added deep linking and push notifications. I have used Provider for state management around the app. I also got into the habit of writing code that can be used again in other projects. I learned how to put apps on the Google Play Store so anyone can download and use them.

Dec 2023 – present

Vadodara, Gujarat,

India

PROJECTS
